

Health Service Building to be Constructed

Nov 25 Oct 1984

With the construction of the new Wasatch County/City Health service building, residents of Wasatch County will be able to come to the same place for health treatment.

This new 4,800 sq. ft. building will house offices for the Public Works Department, the Public Health Offices, and Alcohol and Drug Abuse offices.

It will give all the public health services in one location, making it easy to get to.

The other benefit is that instead of paying rent on several smaller buildings, all the services are located in a county owned facility.

We commend the County Commission for taking action to obtain grants to aid the citizens of Heber Valley.

film "Slayride" to "Silent Night, Deadly Night" to be released this Christmas.

Some pictures screened recently for the trade are "Supergirl", "Beverly Hills Cop" (Eddie Murphy), "Thief of Hearts", and "Give My Regards to Broadstreet" (Paul McCartney.) "Supergirl" opens Thanksgiving across the nation (and at the Avon) and looks to be very good entertainment. "Beverly Hills Cop" will be a huge blockbuster again for Eddie Murphy. It does contain some very harsh language, though. "Thief of Hearts" is an interesting film about a thief who falls in love with a beautiful

woman after burglarizing her house...and has acquired her diary which contains her secrets and...her fantasies, which he begins to fulfill. "Give My Regards to Broadstreet" is a good show for Beatle and Paul McCartney fans. The plot is weak, and barely ties together the many songs contained in the 90 minute music video. The songs, however, have been reorchestrated, and run from the early Michelle to more recent hits and sound very good in the dolby stereo sound track.

Well, that wraps it up for this week, remember 6:30 and 8:30 for movies in Heber this winter...We'll see you...at the movies.
